PREMIUM SKIS

VISION 98

ALL-MOUNTAIN VERSATILITY IN A LIGHTWEIGHT PACKAGE

Whether you're looking to rally through the freshies, arc on groomers, or motor-up skin tracks, the **LINE Vision 98** is up to the task. It may be one of the lightest skis you'll get your hands on, but will rip whatever you throw at it.

CHRONIC

SIMPLY PUT, THE CHRONIC IS A SUPER FUN ALL-MOUNTAIN SKI

The short turn radius and flex combine to make the **LINE Chronic 94** very intuitive and easy to ski, and they handle hard-packed groomers amazingly well for what are fairly soft skis.

Designed for all-mountain freestyle enjoyment, the Chronic 94 remains the dopest all-mountain freestyle ski.

RECKONER

FROM THE POWDER TO THE PARK & EVERYWHERE IN BETWEEN

The **K2 Reckoner 102** is a playful and versatile ski. Whether you are throwing a 360 on the piste or blasting through the woods, this ski can handle it all.

A playful tool built for whipping cork threes off cat tracks, hitting butters and exploring all over the hill.

DISPATCH

LIGHTWEIGHT FREERIDE SKIS DESIGNED FOR USE OFF PISTE & IN THE BACKCOUNTRY

The K2 Dispatch line is an all new collection of freeride skis designed to go hard in the backcountry.

The **K2 Dispatch 110** is the middle child in a family of three - a directional, mid-fat ripper that skis like it's got something to prove to Mom and Dad.

BLADE OPTIC

FOR STORM DAYS AND ENDLESS IN-BOUNDS POWDER LAPS

The **LINE Blade Optic 114** is a super stable stomp stick that will float through the deepest of deep and plow through crud.

Kick it into overdrive and experience freeride through a new lens

PANDORA

MARRIES DEEP SNOW PERFORMANCE WITH HARDPACK & TOURING CAPABILITIES.

Featuring a refined rocker profile, attuned tapering, and a functional 110 waist width, the **LINE Pandora 110** will float through pow, arc on groomers, and fight fatigue on the skin track.
